Re: Request for License  
LRRC Ref. 414529-00002

TO WHOM IT MAY CONCERN:

Our firm represents First Independent Church of Scientology, a California non-profit religious corporation ("FICS").

FICS is planning to create a church where parishioners can practice and obtain all of the spiritual benefits of the Scientology religion. For this purpose, FICS seeks to use the original works of L. Ron Hubbard's (LRH's) as a central component of this new church. As you are well aware, it is impossible to practice the Scientology religion without accessing and using such original works. Accordingly, FICS is seeking a license from the Religious Technology Center (RTC) to use, reproduce and distribute the "technology" and other copyrighted material created by LRH and a license for any incidental trademarks that are essential to practicing the Scientology religion.

FICS is willing and able to pay reasonable license fees for such copyrighted material and incidental trademarks and be subjected to any reasonable restrictions that the licensor may impose on the license. Please note that the founders and Board members of FICS have no intention of personally profiting from the use of the copyrighted material.

Please let us know by February 9, 2017 if you are willing to pursue negotiations on granting such licenses to FICS, or have any questions.

We look forward to your response.

Very truly yours,

Raymond R. Tabandeh
